

# Get started with writing content for your help center

## Authoring Content

Writing content in your help center has never been easier. When you are on the content management page, click on the big circular plus button next to the **Articles** heading above the listing and you will be presented with our editor where you can draft something up and publish it when it's polished enough to see the world.

The screenshot displays the 'Articles' management page. At the top, there is a navigation bar with a user profile icon, the text 'You are viewing: self.helpcenter.io', and a red link 'Love us or hate us? Tell us what you think.' Below the navigation bar is a dark blue sidebar with icons for home, analytics, trash, settings, and a user profile. The main content area features a search bar and a list of articles. Each article entry includes a title, a draft status, creation/update time, author name, engagement metrics (likes, dislikes, hearts), and action buttons (trash, edit, comment, share, and publish/unpublish).
