

How can I translate the titles of the sections in the articles listing component?

Customizations

To provide translation of the **Articles Listing** section titles, click on the small **Edit** icon right next to the name of the section. When an inline input appears, choose the language you would like to adjust, enter your translation, and then press **Enter** to confirm the change.

Sections

Add a Section:

 You already have the maximum number of sections. Please, remove one first, if you'd like to add another.

Current Sections

- Trending Articles  
- FAQs  

Make sure you press **Enter** at the end, otherwise you changes will not get saved. If you cannot see the translations in your help center, you may have forgotten to confirm by pressing **Enter**.
