

How to enable a contacts form in my help center?

Build your help center

You can enable a contacts form for your help center from "Customize" -> "Contacts", then toggle the "Enable contacts form" option on.

< Contacts

Enable contacts form:

This will add a "Contact Us" button in the header and enable a contacts form that will forward support requests to the email address that you have configured in "Customize" -> "General" -> "Contacts Email".
